### **DETAILED ACTION**

1. The indicated allowability of claim 1 is withdrawn in view of the newly discovered reference(s) to Japanese Utility Model Registration 3076080.

Rejections based on the newly cited reference(s) follow.

#### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Japanese Utility Model Registration 3076080. The Japanese reference teaches an indicator 2 for an electrical connector 1. The indicator has information on the first side thereof and slots 25 and 33 adapted to receive the indicator, wherein the slots are spaced from an edge of the indicator.

#### ***Allowable Subject Matter***

4. Claims 7-9 and 13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. Claims 14-16, 19-26 are allowed.

***Election/Restrictions***

Claims 2-6,9-12,17, and 18 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made without traverse in the reply filed on Aug. 11, 2005.
